

Rayarao, Surya Rao

Lead Software Engineer

Manager: Anthony Spight (38589)

Evaluated by: April Ford (21950)

2016 DST Performance Review

Organization : Supervisory Organization (Anthony Spight (38589))

Location: BW06 - Broadway Square Bldg. 6th Floor

01/01/2016 - 12/31/2016

Overall Performance

Manager Overall Evaluation

Calculated Rating:	3.65
Rating:	4-Exceptional Performance
Comment::	I was worried when we lost our tech lead on the eCompliance project. I consider myself to be very lucky that Surya was moved to our team to fill this role. He is thorough in his work, a great mentor to newer associates and provides excellent documentation that everyone benefits from. He is able to juggle a variety of tasks across projects and still mentor associates and complete his work well in advance of the end date. He is respectful to everyone he works with and always wants to do what is best for the client. I believe Surya is a great role model, not just for our newer associates that he mentors but for everyone on the team and in the group.

Additional Manager Evaluation

Employee Overall Evaluation

Calculated Rating:	5
Rating:	5-Distinguished Performance
Comment:	This is a great year for me. I have given enough opportunity to learn, grow, help, mentor, contribute to the team and projects. I learned some of the leading technologies in the market like REST Web Services and ExtJS, expanded my experience in DST products like RICC, eCompliance, RS BSL, AWD and AMS BSL. I'm very happy to part of Diamond Crew team where I was constantly being recognized for my contribution throughout the year whenever there was an opportunity.

Individual Performance Goals

Test Driven Development with at least 90% of the code coverage achieved with JUnits

- My goal is to actively practice and implement Test Driven Development with at least 90% of the code coverage achieved with JUnits test cases.
- Participate in BDD with the team and provide input when reviewing the test scenarios.
- Participate in code reviews and ensure the team is following standards and submitting architecture reviews when required.
- Follow the Swagger documentation standards

Due Date: 12/31/2016

Status: 5 - Complete

Completion Date: 12/02/2016

Category:

Supports: 2016 Wilde - Collaborate and build efficient and productive working relationships with the members of your project team

Weight: 10

Manager Evaluation

Rating: 3-Met the goal(s) and expectation(s)

Comment: Surya made sure that he code was always reviewed and participated in code reviews for Downtown Funk and Diamond Crew. He addressed any feedback and met the junit code coverage requirements. The team started BDD towards the end of the year but we are still working on perfecting the effort.

Employee Evaluation

Rating: 5-Far exceeded the goal(s) and expectation(s)

Comment:

1. Actively involved with team members to improve the overall quality of the delivery
2. Active member of the team to practice and improve the Agile, BDD and TDD methodologies
3. 100% implementation of code review process to improve the code quality and delivery
4. Developed documentation required at various levels to help and support various teams related.

Additional Manager Evaluation

Activity Stream:

06/23/2016, 9:09:49.123 AM: (Stefani Wilde) On all projects for 2016 we have achieved our coverage goal. Surya has provided leadership and guidance toward this effort by providing oversight and suggestions on improvement.

10/06/2016, 2:06:19.117 PM: (April Ford) 10/6/16 Update: Surya is an active participant in code reviews and provides quality feedback in the reviews. He also makes sure that all of his code is submitted for review, he addresses any feedback and meets the junit code coverage requirements.

Develop small utilities and documentation to improve the overall project execution and quality

Ensure that with each iteration an increment of value is delivered.

Promote and adopt best development practices from others with Agile knowledge and experience.

Improved Continuously based on the feedback, lessons learned

Due Date: 12/31/2016 **Status:** 5 - Complete **Completion Date:** 12/02/2016

Category:

Supports: 2016 Wilde - Continue to Develop Agile Maturity and High Performing Teams

Weight: 20

Manager Evaluation

Rating: 3-Met the goal(s) and expectation(s)

Comment: Surya is an active participant in our sprint ceremonies. He typically leads the technical discussion in our grooming and planning meetings.

Employee Evaluation

Rating: 5-Far exceeded the goal(s) and expectation(s)

Comment:

1. Developed Technical guide for eCompliance product with knowledge base useful for the teams working on the products in years to come.

Surya also develops quality documentation for everything he works on. The documentation is easy to understand and follow. It has made an impact on the rest of the team because I see other associates now providing the same type of documentation for the tasks they work on.

On the real-time API project for Brokerage, Surya developed a test script generator spreadsheet tool that could be used for system testing.

2. Provided constant help to Mark related to RICC development and support and mentored him to make him very valuable resource for RICC.
3. Actively practiced and implemented Agile methodology for all the projects in the year and learned a lot throughout the process helped me to know my true potential and always do my best with improved productivity.

Additional Manager Evaluation

Activity Stream:

10/06/2016, 2:07:22.178 PM: (April Ford) 10/6/16 Update:

•Surya is an active participant in all of the agile ceremonies. He asks good questions during grooming sessions and others look to him for guidance on estimating. He also provides quality comments during sprint retrospectives.

•Surya writes excellent documentation.

oI first noticed this when Surya was setting up his workspace to work on eCompliance. As he encountered issues he was sure to make note of the issue and document the fix and then publish this information to our application help page.

oHe provided thorough documentation for the Waddell & Reed project and the services developed on that project.

oHe is very good at drawing models to explain the process for whatever he is working on. Having these visual documents helps even business associates understand what he is talking about.

oSurya not only provides documentation on what he works on, but this is a good model for others that work with him. They see the organized and thorough documentation he produces and they know how helpful it is so they start doing the same thing.

06/23/2016, 9:27:05.615 AM: (Stefani Wilde) Team Electricc consistently provided business value with each sprint. Deliverables were provided as committed. Surya worked to ensure efficient project execution by providing technical oversight of the team and providing assistance, guidance, and tools for quality assurance.

02/29/2016, 1:59:54.978 PM: (Stefani Wilde) On the real-time API project for Brokerage, Surya developed a test script generator spreadsheet tool that could be used for system testing.

Developing Self Participate in [New Technology Learn 'n' Share](#)

I want to actively participate and collaborate with other developers for [New Technology Learn 'n' Share](#) initiative.

I want to develop self by:

- taking on the challenge of being a tech lead on the Downtown Funk team working on the eCompliance project.
- continuing to mentor associates on the RICC team and now associates on the eCompliance team
- working with the Downtown Funk and Diamond Crew teams to gain a good understanding of the eCompliance project.

Due Date: 12/31/2016

Status: 5 - Complete

Completion Date: 12/02/2016

Category:

Supports: 2016 Wilde - System and Operational Efficiency

Weight: 20

Rating: 4-Exceeded the goal(s) and expectation(s)

Comment: Surya spends a lot of time mentoring the 3 newer associates on the team all while getting up to speed on the eCompliance project and working on his sprint assignments. The newer associates are very comfortable coming to Surya with questions and respect him. He is now leading the team on a project to build web services. This is new for most the associates so again he is mentoring them on the standards.

Rating: 5-Far exceeded the goal(s) and expectation(s)

Comment:

- I'm extremely happy to be part of this great team, loved the team work, got the chance to mentor Julia, Alex and Mark very closely during my most recent projects with BSL and eCompliance.
- Successfully led the technical team to implement the Business Service Library end points with external APIs, while integrating with complex AWD and external Thomson Beta systems.
- Able to understand the highly complex eCompliance system and could give my best to the team in meeting all of the project goals on time with excellent quality.
- Worked very closely with the team member to mentor, assist, guide, coach them to reach their full potential.
- Constantly learning new technologies and tools including but not limited to ExtJS, Spring MVC, SQL PL, REST, BSL, External system integration.
- Personally spent time on learning new technologies like Angular JS, Bootstrap and React JS.

Additional Manager Evaluation

Activity Stream:

10/06/2016, 2:06:50.927 PM: (April Ford) 10/6/16 Update:

•Surya actively mentors 2-3 associates on a day to day basis. This is for both the RICC and eCompliance applications.
oRight now he is spending at least 2 hours a day mentoring Mark on RICC so that Mark can take over all of the tasks for the RICC application. That has been an extensive effort right now with typical RICC support, changes to the email address for RICC, a security issue that impacted multiple applications, attestation requirements that are impacting RICC, the JBoss/JDK upgrade for RICC and SOC1 information that has to be provided to audit. All of these items are completely new to Mark so Surya has to walk him through the overviews and answer questions as he goes along.
oSurya has been mentoring Julia occasionally on eCompliance questions and recently helped her with her first design task on the project.
oSurya regularly helps Alex with eCompliance and recently helped him with development and the review process on his first new endpoint development.
oSurya is very patient and respectful of the people he works with. The way he provides feedback gives them the confidence to move forward on their tasks and be successful on the project. He also provides quality feedback to me so that I can use this information when evaluating the associates and determining what other learning opportunities there are for them.
•In addition to helping others Surya has been busy educating himself on the eCompliance project.
oI believe this is completely different than anything he has worked on before and has many complexities. I'm impressed with how fast he has been able to get up to speed on the coding and standards that had already been implemented in the project. Surya worked with Kris to design the new table for the Plan History project and mentored Julia through the design for this project.
oSurya has been working with the architecture team on asynchronous processing for the application.
oHe does plenty of research on his own but he doesn't hesitate to ask Julia questions about the application when he needs help. He completes his tasks under the estimated time and with high quality.

Activity Stream:

06/23/2016, 9:08:27.327 AM: (Stefani Wilde) Surya began an effort to work with Ravi, Mark, and Lakshmi to learn about Scala. This effort had to be set aside when project deadlines & expectations did not permit any time to be spent on it.

Delight clients by exceeding 90% of the sprint commitments.

My goal to to Delight clients through delivering on our commitment and solutions they have requested.

Actively manage client expectations.

Meet or exceed 90% of our sprint commitments.

Quality focus with iterative releases to PROD.

Due Date: 12/31/2016 **Status:** 5 - Complete **Completion Date:** 12/02/2016

Category:

Supports: 2016 Wilde - Client Focused Development Delivery

Weight: 30

Manager Evaluation

Rating: 4-Exceeded the goal(s) and expectation(s)

Comment: Surya completes his sprint tasks before the end of the sprint. He works closely with the business resources to ensure what he is coding is high quality and meeting the expected requirements.

Surya is mentoring Mark Dalton to get him up to speed on RICC. While Mark is still learning RICC, Surya monitors the RICC support board and makes sure that issues are being addressed in a timely manner.

At the beginning of the year he worked on 3 projects for RICC and helped deliver the projects on time with high quality. He provides leadership, knowledge and

Employee Evaluation

Rating: 5-Far exceeded the goal(s) and expectation(s)

Comment: Successfully delivered 100% of the project releases on time with 100% quality and zero defects related to eCompliance, RICC and AMS BSL projects in this year.

Extremely happy to be part of this team and got a wonderful opportunity to build, implement and support various assignments throughout the year.

We gave our 100% to provide the best quality delivery and I'm very happy to see we met all of the dates as planned.

motivation to his teammates. The team had to take on unexpected security challenges, constant requirements changes from the clients, etc. Ultimately the team was praised by the product owner for the ability to take on new challenges and deliver great results.

Surya worked with DST and Waddell & Reed at the end of the year to resolve a certification issue that happened on the client side which required a change on the DST side. Surya received a personal thank you from Mike Stubblefield, Jesse Montgomery and a note of appreciation from the President of Waddell & Reed. Surya has also been included as a key participant on this project, Electronic Form Presentment, which has been nominated for a McDonnell Award

Additional Manager Evaluation

Activity Stream:

02/29/2016, 2:10:27.142 PM: (Stefani Wilde) One of the challenges on the real-time API project was figuring out the security aspects. Surya worked closely with Lakshmi in resolving our security needs both in the development environment and for Beta and production.

On the project, Surya provided technical leadership in ensuring the team executed the best quality work by doing thorough code reviews and guiding the team through the best design and coding methods.

10/06/2016, 2:07:54.581 PM: (April Ford) 10/6/16 Update:

- Since joining the project, in each sprint Surya is able to pick up additional tasks since he typically completes his tasks under the estimated effort. He works closely with the business resources to ensure what he is coding is high quality and meeting the expected requirements.
- In the short time Surya has worked on the Downtown Funk team I believe he has learned several new things other than just learning a whole new application. There have been multiple upgrades/changes required for RICC that were not planned for and are not normal project changes. He was also instrumental in supporting the Waddell & Reed production implementation. There were a few items that came up at the last minute that were not related to what he worked on, but he did the research to find out what the issue was and pass on that information to the appropriate team. There were a couple of nights where he was on phone calls well beyond core hours to make sure he provided any help he could so the client could go live on the planned date.
- Surya has put in extra time over a couple of sprints to make sure we were able to keep up on bug tickets and still deliver the planned stories for the sprints.

06/23/2016, 9:01:14.111 AM: (Stefani Wilde) Team ElectRICC had a successful and very stressful first six month of 2016. We completed 3 project (SEI Real Time API's, New RICC security reporting, and the WDR New account Onboarding) on time and with high quality. What made these stressful is prior committed dates without any input from the team. In addition, the projects were really not ready to turn over to a development team at the time the assignments were made. With that said, the team grabbed the bull by the horns and took on the challenge. Surya's strong technical leadership and excellent people skills were essential to our success.

02/29/2016, 2:12:42.120 PM: (Stefani Wilde) Surya was instrumental in ensuring our completion of our sprint commitments on the real-time API project. He willingly took on a variety of tasks including coding and test script execution to help us meet our commitments. He also helped to bridge communication issues among the team and worked to ensure full understanding between the developers and the quality analysts.

Activity Stream:

05/18/2016, 9:18:31.694 AM: (Stefani Wilde) On the Waddell & Reed project sprint 2, the team delivered the sprint commitments two days early, and the stakeholders were very pleased with the software demonstration. Surya's technical leadership combined with his willingness to take on tasks such as coding and system test script writing were instrumental to achieving this outcome.

02/29/2016, 1:55:12.475 PM: (Stefani Wilde) Surya provided leadership, knowledge, and motivation to his teammates on the real-time API project. This was instrumental in the team's ability to achieve delivery of the project components. The team came into the project knowing only that some APIs needed to be built. As we progressed further into the project we learned there was much more to it (security challenges, CSV file consistently changing, etc). Ultimately the team was praised by the product owner for the ability to take on new challenges and deliver great results.

Deliver all of the 2016 projects with 100% on time with less than 5% code review or QA Issues

My goal is to deliver 100% of the project work that has been committed with highest quality.

My goal is to achieve less than five percentage of code review or QA testing issues.

Due Date: 12/31/2016 **Status:** 5 - Complete **Completion Date:** 12/02/2016

Category:

Supports: 2016 Wilde - Act Aligned with DST Values

Weight: 20

Manager Evaluation

Rating: 3-Met the goal(s) and expectation(s)

Comment: Surya delivers his sprint tasks on time. If he has a question regarding standards he reaches out to other team members or the architecture group for guidance so he ensures he is delivering high quality code.

Due to the overall quality of the eCompliance project the rating is being lowered to a 3. There have been a significant amount of issues opened within the prod environment that are having to be addressed during the yearly testing for eCompliance.

Additional Manager Evaluation

Activity Stream:

10/06/2016, 2:07:41.256 PM: (April Ford) 10/6/16 Update: I have made updates in other goals that apply here too.

Employee Evaluation

Rating: 5-Far exceeded the goal(s) and expectation(s)

Comment: Delivered 100% of the project work with highest quality
Continuously improved the code base with constant and active code review process, engaged the team to perform at best and helped Mark to become the best resource to support RICC product.

Activity Stream:

05/18/2016, 9:39:05.379 AM: (Stefani Wilde) So far during 2016 our team has worked on delivering three projects: RICC Small Enhancements (Prod June 2016), SEI project (prod April 2016), and Waddell & Reed Docupace/AWD project (prod June 2016). The project deliverables have been of high quality. Issues discovered in the RICC Small Enhancements project were mostly due to further clarification of requirements needed. SEI project involved a brand new client and again involved clarification of requirements and specifications as the client began to test. As we work through the Waddell & Reed project we are delivering on the sprint commitments but have yet to see the impact of client testing. Both the SEI and Waddell & Reed project have been on a very fast pace and Surya has done a great job of helping to ensure quality while keeping up with the delivery expectations.

Rating: 5-Far exceeded the goal(s) and expectation(s)

Guiding Behaviors

Instills Trust

Gaining the confidence and trust of others through honesty, integrity, and authenticity.

Manager Evaluation

Rating: 4-Excelling
Comment: The newer technical associates look up to Surya and value his opinion. When he is mentoring them he gives them respect and has patience when teaching. He is a great role model for these associates.

Employee Evaluation

Rating: 5-Talented
Comment:
Gaining the confidence and trust is my highest priority always.
I'm fortunate to get our great team and happy to be part of it.
I always want to be helpful and respect others which really gave me lot of opportunities to learn and grow with the team.
I gave my best to share my knowledge, help any team member when needed.

Additional Manager Evaluation

Collaborates

Building partnerships and working collaboratively with others to meet shared objectives.

Manager Evaluation

Rating: 4-Excelling
Comment: Surya has worked with a variety of associates throughout the year as he has stated in his comments. He is very

Employee Evaluation

Rating: 5-Talented
Comment: During this year I was required to work very closely with external clients including SEI, Docupace, WDR and other projects team

professional and easy to work with. People reach out directly to him to get his assistance when there is a problem because they can count on him to resolve the issue.

including middleware, Operations, Support groups. This helped me a lot and given wider opportunity to explore and learn lot of new things at DST. I was always ready to share my knowledge and help others.

Additional Manager Evaluation

Ensures Accountability

Holding self and others accountable to meet commitments.

Manager Evaluation

Rating: 4-Excelling

Comment: No matter what the issue is, Surya jumps right in and helps find a resolution. On the Waddell & Reed project there have been several issues opened but a majority of the issues have been related to AWD code or a result of the client not following the rules for the web service. Each time Surya helps to identify the issue and who needs to address it.

Even though he is not allocated to the RICC project team anymore he is still mentoring the RICC associate and makes sure if there is an issue it gets addressed in a timely manner. He does this during working hours and when called during off hours.

Additional Manager Evaluation

Employee Evaluation

Rating: 5-Talented

Comment: I took complete responsibility for the delivery of AMS BSL project and RICC product support. I have given my best for eCompliance during my short time for this project.

Client Focus

Building strong client relationships and delivering client-centric solutions.

Manager Evaluation

Rating: 4-Excelling

Comment: Surya always puts the client first and provides a resolution or status in a timely manner. A good example of this is during December Docupace had a certificate expire on their side and it impacted the ability for the Waddell & Reed web services to work. Surya worked with the client to get the new certificate information and have a change made to get the client back up and running. He received a thank you from Mike Stubblefield, Jesse Montgomery and a note of appreciation from the President of Waddell & Reed.

Additional Manager Evaluation

Employee Evaluation

Rating: 5-Talented

Comment: During this year I was required to work very closely with external clients including SEI, Docupace, WDR and other projects team including middleware, Operations, Support groups. This helped me a lot and given wider opportunity to explore and learn lot of new things at DST. I was always ready to share my knowledge and help others.

Develops Talent

Develops self or others to meet career and organization goals.

Manager Evaluation

Rating: **4-Excelling**

Comment: Surya spends a lot of his time mentoring the 3 newer associates on the team. He doesn't go a day without answering a question for at least one of them. In addition to mentoring he also quickly got up to speed on the eCompliance project and is now learning all there is to know about SQLPL, stored procedures and web services. He knows others will continue to look to him for answers so he has to be prepared to help them.

Additional Manager Evaluation

Employee Evaluation

Rating: **5-Talented**

Comment: I learned a lot in this year. I got some great opportunity to learn BSL for the first time, also learned Alloy, Ext JS, RS BSL Web Services, SQL PL in this year. Additionally at home I started learning Angular 2, Couchbase NO Sql database and ReactJS frameworks. Overall it is a great learning experience for me.

Communicates Effectively

Developing and delivering multi-mode communications that convey a clear understanding of the unique needs of different audiences.

Manager Evaluation

Rating: **4-Excelling**

Comment: Surya typically has an idea of what needs to be designed but he encourages others to contribute their ideas to the design and tries to incorporate those ideas when possible. He writes thorough documentation for the tasks he works on so others can perform a similar task on their own.

One thing I really appreciate is that Surya can take a technical discussion and relate it to non-technical associates and explain it so they understand. I believe this is very important so the whole team can have a common understanding of the project.

Additional Manager Evaluation

Employee Evaluation

Rating: **5-Talented**

Comment: I have given my best while communicating with others, especially when I was required to explain some technical details, I tried to explain at a great detail so that the information shared in much cleaner and clear way. I also spent some good amount of my time building lot of documentation around what I learned and felt would be useful for other associates or future project teams. I'm very happy to see very good technical documentation available now for eCompliance, SEI & WDR BSL APIs.
