Dependent Claims 700

adaptive pipeline orchestrator – multi-agent reinforcement learning

710

dynamic multi-modal embedding alignment

720

curriculum learning with DAG-based model versioning

730

counterfactual explanation via invertible mapping

740

blockchain-enabled selective disclosure for metadata governance

750

topology-aware self-organizing compute mesh

760

quantum-resistant data collector with forward secrecy

770

formal translation of natural language governance into verified rules

780
