Overall

Manager Overall Evaluation

Rating: 4-Outstanding

Comment:: Surya is a very strong Java Technical Lead on the team. He demonstrates exceptional professionalism and confidence when solving complicated issues and always welcomes new challenges. He trains others in an area of expertise and always shares knowledge with colleagues. Additionally, Surya is recognized by colleagues and internal clients as being a functional and technical expert.

Surya evaluates all possible solutions and chooses the one that will deliver the best results. He develops teamwork and cooperation while participating in a group and works towards solutions that generally benefit everyone. He supports and helps other team members in their work in order to contribute to the overall success of the project. I could not have hoped for a better Technical Lead.
